Academic Year in Review
2014–15
Director’s Message

The Charles and Nancy Davidson Management Honors Program (DMHP) experienced continued growth and achievement during the 2014–15 academic year. DMHP students excelled in the classroom and as campus leaders. They also achieved high levels of success in business competitions and gained valuable experience studying abroad and taking part in internships.

The last academic year included exciting milestones for DMHP. The program offered its first study abroad trip, which provided students the opportunity to experience the business and culture of Sydney, Australia. DMHP students also took part in the fourth annual spring break trip to Washington, D.C., and New York City. In October, DMHP moved into brand new office space located in the recently opened addition to the Naveen Jindal School of Management. This new space includes a lounge that is reserved for the exclusive use of DMHP students as well as new offices for DMHP staff.

The achievements of DMHP students continue to push the program to new heights, and this makes it possible for us to continue offering greater opportunities for growth and development. I believe that the 2015–16 academic year will be even more exciting for DMHP.
