Julia Cocco

Major
BS Supply Chain Management

Hometown
Austin, TX

How and why did you choose your major at UTD?
I'm the kind of person that likes completing a task as efficiently as possible. Supply Chain was a natural fit!

What are your future career goals?
My goal is to become such an expert on Supply Chain and Logistics that I can consult Fortune 500 companies over dinner.

Why would you recommend your major to incoming students?
The realm of supply chain is a rapidly growing field that doesn't have nearly enough people in it. They need talented, intuitive, and driven individuals that are constantly looking to shake up the playing field with new technologies and perspectives. It's one of the more dynamic career fields to join, and having a Supply Chain Management degree is a foot in the door.
