INFO SESSION

The Global Development Initiative (GDI) is a collaboration between the Center for Global Business at the University of Texas at Dallas and the Richardson Chamber of Commerce dedicated to supporting international Small and Medium Enterprises (SMEs) in establishing themselves in the City of Richardson and the Dallas-Fort Worth area. Students participating in this program are be able to conduct market analysis and research for international companies looking to expand into the US market.

Come and learn about our process, how to receive a certificate from Richardson Chamber of Commerce and international internship opportunities with Japanese companies.

WHEN: WEDNESDAY, SEPTEMBER 5 (3pm-4pm)
WHERE: JSOM 2.106

If you answered YES to all these questions please come to learn how to Fast-Track into our MS-IMS Program.

**WHEN:** FRIDAY, SEPTEMBER 7 (1pm – 2pm)
**WHERE:** JSOM II 14.501

“During my time at UTD, I learned about international business both from the classroom and from my classmates. MS International Management Studies program provided me with knowledge in business operations and global economy which are applicable in a real-world business. I also made a lot of friends from different cultures which made the class very diverse and interesting. This program truly offered a unique connection across the culture, work experiences, and personal background and equipped me with skills needed in a future career.”

“I started my career after graduation with Unilever in Thailand as a Management Trainee where I am currently assigned to work on specific projects in Customer Development in a span of 9 months before rotating to the next stints and moving into management role at the end of the program. Due to the rotation, I will have to make the most of everyday to learn as much as I can in a fast-paced, dynamic environment. Meanwhile, I also take roles in initiating the project and designing way of working where I develop leadership and communication skills. This program is a great program to obtain cross-functional experiences, learn from world-class experts, and go above and beyond to be a professional manager and envisioned leader in FMCG industry.”
